REMARKS

Claims 1-15 were currently pending in the Application. Applicants have canceled amended claims 1, 6, 9 and 13. Applicants respectfully request entry of the above amendments and consideration of the enclosed remarks. Applicants submit that no new matter is added. Accordingly, claims 1-15 will remain pending in the application.

Claim Rejections

On page 2 of the Office Action, the Examiner rejected claims 1-3 under 35 U.S.C. section 102(e) as allegedly anticipated by either U.S. Patent Application Publication No. US 2002/0124664A1 by Call, et al. or U.S. Patent Application Publication No. US 2003/0058099A1 by Lopez, et al.

In response, Applicants traverse the rejection. However, solely to expedite prosecution, Applicants have amended claim 1 to recite "the sanitizer module including a buffer allowing the mailpieces to deskew onto the transport belt."

Accordingly, the rejection is moot. Claims 2-3 depend directly or indirectly from claim 1 and are patentable for at least the same reasons as claim 1. Applicant respectfully submits that present claims 1-3 are patentable over the cited prior art. Accordingly, Applicant respectfully requests that the Examiner withdraw the rejection.

On page 2 of the Office Action, the Examiner rejected claims 4-15 under 35 U.S.C. section 103(a) as allegedly rendered obvious by either U.S. Patent Application Publication No. US 2002/0124664A1 by Call, et al. or U.S. Patent Application Publication No. US 2003/0058099A1 by Lopez, et al in further view of U.S. Patent No. 6,191,424 to Stirling, et al.
